

TERMS OF REFERENCE SENIOR ECONOMIST

The Firm

Since 1983 — long before “green” was a hot topic — Marbek has understood the importance of effective environmental and resource management in achieving a sustainable economy. We remain one of Canada’s leading energy and environmental consulting firms, providing Canadian and international clients with practical, cost-effective solutions in areas ranging from energy management and climate change adaptation to watershed protection and pollution prevention. We proudly stand behind our reputation and continue to deliver only top-notch results to our clients.

The Position

Marbek is seeking a senior environmental economist who will provide expertise and leadership to the company’s energy and environmental consulting assignments. Specific requirements will include:

- Conceptualization, organization, and design of approach/workplan for economic studies
- Provision of economic expertise relevant to the assignment
- Research planning (interviews, literature reviews, surveys, etc.)
- Analysis of information (cost-benefit analysis, economic impact analysis, modelling etc.)
- Development of policy, program, and/or technical recommendations as required by the assignment
- Preparation of project deliverables (reports, presentations, etc.).

It is also expected that the senior economist will:

- Contribute substantially to the marketing and business development activities of the firm, through direct interaction with clients, preparation of proposals, etc.
- Undertake the overall management of projects, including responsibility for assignment of personnel, timeliness and quality of deliverables, and budget control.

Qualifications

- Graduate Degree in economics
- Minimum 8 years work experience
- Experience in designing and leading economic studies
- Knowledge of environmental and energy issues
- Experience in developing and using economic models
- Strong conceptual and analytical ability
- Excellent communication skills (written and oral)
- Research skills and experience
- Report preparation skills and experience (writing, editing, supervision)
- Highly motivated, with a desire to work as a member of a team committed to excellence

- Experience in financial analysis an asset (e.g. business planning and ROI calculations)
- Knowledge of energy markets and/or emissions trading an asset
- Consulting experience an asset
- Fluent in English (speak, read, write); French and/or Spanish an asset

Terms of Appointment

- Permanent position
- Salary commensurate with experience.

Interested candidates should respond by email to marbek@marbek.ca, or by mail to: Marbek Resource Consultants Ltd., 222 Somerset Street West, Suite 300, Ottawa, ON K2P 2G3.

All submissions received will be carefully considered, but only candidates selected for interview will be contacted. No phone calls please.
